

An Overview of the Special Moments Package

A Professional Chef & Server will arrive to your location 1.5 hours before your guests arrive. They provide all cooking equipment, environmentally friendly bamboo plates, cups, utensils & napkins. This package includes 3 tables, linen and a popup tent for our team's use, as well as some décor. Once our team arrives, they will setup their equipment, assist you in setting up your items.

Your guests may mingle and help themselves to the grazing board and complimentary iced drinks. Our chef will be grilling and serving guests the menu, while the server is there to assist and keep things clean. After approximately 4 hours onsite, the chef and server will clean up, remove trash, box leftovers, and assist with any remaining duties or requests.

We can also handle renting, delivery & staging of tables, chairs, linen & décor. We provide additional services such as bartending, event coordinators, photography, photo booths, floral arrangements, music & more.
